
Please note: Currently **KlangKompass** is only available in German language version. An English language version will follow soon. Until released, please use the online **“Music search”** feature on this website which covers corresponding search features.

Now you can order the KlangKompass DVD free.

Alternatively, you can also download the installation DVD (app. 1.045 MB) for free - see link below.

If you use it on an Apple computer, simply mount. On Windows PCs use the prepared DVD-image and your burning program to create the installation DVD.
